Australian Made

Adrad coolants and treatments are proudly Australian made and formulated to deliver optimum cooling performance in Australia's harsh conditions.

Nip into Natrad

***High Performance**

Using Adrad Organic Corrosion Inhibitor over some traditional anti-freeze coolants **can increase heat exchange capacity by up to 40%**, achieving excellent cooling performance for applications where freeze protection is not required.

For Old or New

Adrad Coolant with Corrosion Inhibitors are available with an organic formulation for newer vehicles and hybrid type corrosion inhibitors for older vehicles.

Need Large Quantities?

Larger, more cost effective sizes are available. Sizes: 20L, 205L & 1000L
